Prescribe Alzheimer's Community Care For Local Services and Resources

Alzheimer's Community Care is a local non-profit agency dedicated to serving Alzheimer's patients and their caregivers in a community-based setting. Without the necessary community support, many patients will face costly and heartbreaking institutionalization because the burden of caring for a loved one with Alzheimer's disease can be overwhelming, physically, emotionally and financially.

Call (561) 683-2700

Alzheimer's Community Care places a safety net around patients and caregivers every day.

For Health Information and Patient Education

The National Library of Medicine at the National Institutes of Health has developed a free website especially for consumers.

Patients and caregivers need reliable information. When they look to you for answers, recommend the most authoritative, user-friendly website available for health information: MedlinePlus.gov.

Prescribe MedlinePlus.gov

This commercial-free site includes interactive tutorials and thousands of easy to read articles to answer patient questions about:

- Current Medical News
- Health and Wellness Topics
- Disease Prevention
- Nutrition
- Specific Diseases, including Alzheimer's disease
- Symptoms
- Current Treatments
- Latest Research
- Medications

Benefits of MedlinePlus.gov

Physicians who are currently prescribing MedlinePlus.gov for their patients report:

- Improved communication with patients
- Increased compliance
- Decreased patient anxiety
- Reduced office time spent on patient education

Make the Best Use of Office Time

Your valuable time with patients is more effective and satisfying when they understand your advice. MedlinePlus.gov is both comprehensive and evidence-based. Interactive tutorials are easy for patients to understand.

InformationRx.org

Register online today at InformationRx.org or complete the attached card and mail or fax to Alzheimer's Community Care for your free materials, including pre-printed prescription pads, posters for office display and bookmarks. These tools will make your referrals for health information and patient education quick and easy for you and your patients. InformationRx.org makes it easy for you to prescribe MedlinePlus.gov.

Alzheimer's Disease

Patients and family members rely on you for help and information when they or someone they love begin to experience symptoms of Alzheimer's disease.

Alzheimer's disease will affect:

- 10% of your patients age 65 and older
- 50% of your patients age 85 and older

For every patient diagnosed with Alzheimer's disease several other family members, including the primary caregiver, will need help. For local services and resources for Alzheimer's patients and caregivers, prescribe Alzheimer's Community Care at...
