96% of all car seats are installed incorrectly! At the fitting station certified Child Passenger Safety Technicians will check your child's car seat for proper installation, safety and recall status, and provide education. They will teach you how to properly install your seat.

WHAT TO BRING TO YOUR APPOINTMENT:

Please bring your child, car seat and vehicle, as well as the manuals for both the car seat and the car to the event. If you meet the requirement for a new child restraint, a new one will be available for a donation.

**Installation schedules may be subject to change due to holidays and CPS Technician availability.*
