Sea Turtle Rehabilitation Facility

Visit the Rehabilitation Facility located on the ground level under the Classroom Building.

View the turtles in our care, find out how and why they got here, and learn what you can do to help prevent injuries to sea turtles and other wildlife.

Gumbo Limbo Lingo

Gumbo Limbo Tree: known as the “tourist tree” because of its red, peeling bark

Tropical Hardwood Hammock: dense, vine-tangled forests

Middens: historical, native trash heaps

Please do not throw this map in the trash. Keep it for next time, pass it to a friend, or return it to the front desk for the next visitor to use.

It is easy to make a difference!

Points of Interest at Gumbo Limbo

- Follow the blue fish to our outdoor Marine Aquariums (5) which house sharks, stingrays, lobsters, sea turtles, and native fish! On your way there, check out our gopher tortoises habitat (6) in between the walkways!
- In the Nature Center (1), visit our Sea Turtle Exhibit (1) in the North Room. Learn what you can do to help sea turtles survive!
- Orange seahorses lead you to the Florida Atlantic University Research Gallery (4) where you can observe researchers working with sea turtles, sharks, rays, & sea grasses. While you're there, check out our indoor aquariums!
- Black and yellow butterflies guide you to the Butterfly Garden (13). Beyond that, stroll along the Ashley Trail (14) to the authentic Seminole Chiki (15) overlooking the Intracoastal Waterway.
- Walk the 1/4 mile boardwalk (7) winding through the tropical hardwood hammock. Climb the 40-ft. tower (9) and see a gorgeous panoramic view of the Intracoastal Waterway to the Ocean! It's worth the climb!
- Visit the Sea Turtle Garden (16) which features adult sized sculptures of all seven species – a great photo opportunity!

Welcome to Gumbo Limbo Nature Center!

- Named after one of the dominant tree species in the hammock, Gumbo Limbo Nature Center is designed to provide environmental education for both the community and walk-in visitors.
- We are located in the City of Boca Raton's Red Reef Park on a barrier island between the Atlantic Ocean and the Intracoastal Waterway. 
- Woodpeckers, spotted skunks, gray fox, screech owls and many other animals make their home here.
- Rare and endangered species such as manatees and sea turtles have often been observed off Gumbo Limbo's shore.
- Coastal relics such as shell middens from the Glades Indians, pond apple and cabbage palm trees from the shore of the Spanish River (original body of freshwater) can be seen from the boardwalk and tower. These assets give Gumbo Limbo a unique blend of living history.

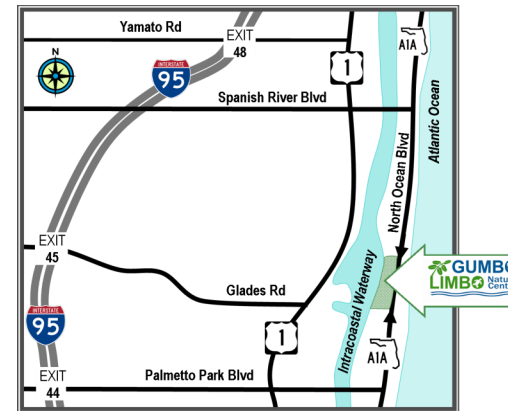

Park Etiquette

- No bathing suits; shirts and shoes required
- No sun-bathing, swimming, or wading
- No pets
- No picnicking
- No smoking
- No beach parking
