

For patients: Before your screening

Is there a fee to get a mammogram on the Van?

Wellness in Motion Bus offers mammograms, biometric screening and education to all medically eligible women. We will bill your insurance company for the screening mammogram. Please note that you will be financially responsible for any related co-pays, deductibles, and follow-up appointments.

Who works on the Van?

Caring, experienced health professionals and a Certified Mammography Technologist from Jupiter Medical Center.

Who should get their mammogram on the Van?

Women 40 years of age and older (35 years old with family history and prescription)

Women who have not had a mammogram in the past 12 months

Women who are not currently experiencing breast problems

Why get a mammogram every year?

A mammogram (x-ray of the breast) is the best way to find breast cancer early, when there are excellent options for treatment. In order to find breast cancer as early as possible, it's important to get a mammogram every year, not just once.

What do I bring with me to my appointment?

Photo identification card, insurance card and most recent mammogram CD/ films (last 3 years)

How do I sign up?

Pre-registration is recommended. Please call the Wellness in Motion office at 561-263-4636.

What other services are on the bus?

At this time we are just performing screening mammograms and biometric screenings, but we are always adding new services.

How do I donate?

Thank you so much for thinking of making a contribution to our program. Please call the Jupiter Medical Center Foundation at 561-263-5728 or visit jmcfoundation.org for more information.

For patients: After your screening

24-48 hours after your appointment your results will be sent to your healthcare provider listed on your prescription (if applicable). A letter of your results will be mailed to you. The letter will explain what to do next. Please read the letter carefully.

Why are my results taking so long?

If your results are not received within two weeks from your exam, please contact (561) 263-2000.

Results can be delayed for a number of reasons:

- *Delay in obtaining prior mammography films*
- *Corrections made to patient information in the system*
- *Technical problems (you will be notified)*

What if my reading is normal?

If your results are normal, your next mammogram will be due one year from the appointment date.

What if my reading is abnormal?

Please contact your healthcare provider as soon as possible. Abnormal readings indicate that something suspicious was found. This does not always mean something is wrong. The radiologist just needs further information to give you the best results. If you need assistance in finding a health care provider, please call Physician Referral Department (561) 263-5737.

What if I get a bill, even though I have health insurance?

Most health insurances cover one screening mammogram per calendar year. Please call the number on your billing statement for clarification.

Where do I have follow up appointment?

We are a comprehensive program and the Margaret W. Niedland breast center team will schedule you within a week of your appointment.
