

E-Zee Comfort Just Right

~ A Lightweight Backing Finisher with a Heat-Activated Adhesive

E-Zee Comfort Just Right 1.3 oz. is a smooth, soft cover-all that is fused to the back side of finished embroidery with an iron or heat press. It produces a finished look and feel, and is perfect for children and infant wear and for anyone with sensitive skin. Use on all of your embroidery to add a unique finished look and feel that will put your business above the rest!

How to use Backing Finishers

1. The heat-activated side of E-Zee Comfort Just Right 1.3 oz. has a rough feel to it.
2. After embroidering your design, turn the garment inside out to expose the back side.
3. Lay a piece of E-Zee Comfort Just Right over the back side of the design with the rough side down.
4. Trace a trim line about $\frac{1}{2}$ " to $\frac{3}{4}$ " larger than the finished embroidery. Be sure to round the corners and cut out.
5. Place the piece over the design evenly with the rough side of E-Zee Comfort Just Right facing down.
6. Fuse on by applying heat at 250° to 270° for approximately 10 to 20 seconds.

Available in these sizes:

Pre-cuts - 100 pieces per pack
• 7" x 7"

Rolls
