Family Support Partners
and the Wraparound Process
Presented by Susan Boehrre and Julie Radlauer-Doerfler

2 DAY FAMILY SUPPORT PARTNER TRAINING FOR THE WRAPAROUND PROCESS

One of the most powerful things for a parent or guardian raising a child with behavioral health issues and/or raising a child while experiencing their own behavioral health issues is to find another parent who understands what it’s like to live in their shoes.

This is the premise for a Family Support Partner (FSP) in the High Fidelity Wraparound (HFW) team. This position offers various levels of support for families based on the family’s needs and HFW plan. They work closely with the HFW Facilitator to support positive outcomes for the family. This training is designed to prepare Family Support Partners /Peers to participate in the wraparound process. You will be prepared to use the training materials to work with families participating in Wraparound.

Over the last 20 years, Vroon VDB has formalized the Wraparound process in the United States. Under Vroon’s direction, Henderson Behavioral Health and The Ronik-Radlauer Group, Inc. have also successfully been implanting this model in Florida. If addition to the Facilitator training and the Coaching training, it is also incredibly important to educate Family Support Partners in the community. This 2-day Wraparound Family Support Partner training teaches a competency-based process for assisting Family Support Partners to support high fidelity wraparound. It will present many new strategies to the Family Support Partners that can be used to work with both Case Managers and families receiving services.
